

C Crump 47

My dear Sir

Provoked beyond measure
in not having been able to do justice
to your introduction of young Storer,
I embrace the opportunity of his departure
to thank you for making me acquainted
with an amiable unpretending young
man, still gifted with quick percep-
tion of all around him, & keen in the
pursuit of Natural Science

It gave me pleasure to hear
that you were doing well, & still
pursuing botany. I wish I could
ramble over my old haunts in N. Eng-
with you — instead of being "chained
to a Strongbox" —

I hope my letter of the 9/20 Sept.
last came to hand - I have sent
to the American Academy a copy of
the Transactions of the Imp^l Mus.
Society & embrace this opportunity
to hand you the 2 last publications
for your self.

Very truly & sincerely I

remain Yours

Chas. Brannin

To

Dr. Alex. Gray
